

Information Display Solution

Spreading awareness effectively on the campus

HIKVISION®

WHAT SCHOOL Administrators **ENCOUNTER**

To ensure a safe campus environment, it is important to keep the entire community well-informed. However, swiftly and broadly promoting campus activities often presents challenges for school administrators.

- It's challenging to share info, schedules, and notifications with all faculty and students quickly

Ensuring timely & accurate communication

- Making information visually appealing can be a struggle

Organizing information in an appealing way

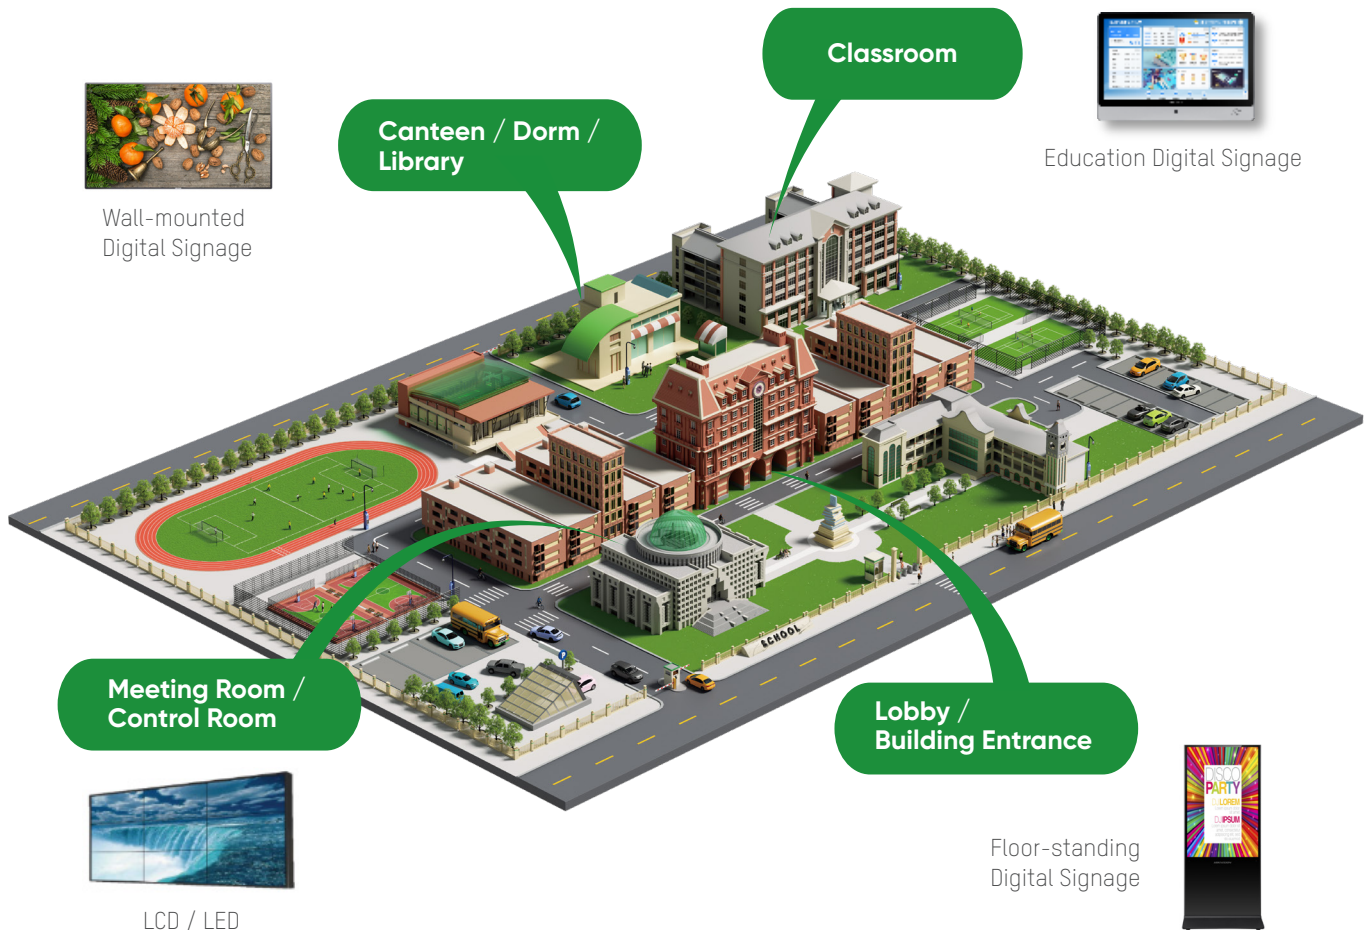

- Controlling traditional display devices on large campuses independently can be time-consuming

Managing multiple display devices efficiently

SOLUTION HIGHLIGHTS

To address these challenges, Hikvision's information display solution offers diverse information displays that help facilitate efficient campus communication and enhance student engagement in the learning community.

Simple setup and management

Hikvision's Digital Signage can be easily set up in classrooms, outdoor teaching areas, the canteen, and control rooms. It allows centralized management of multiple devices across different locations.

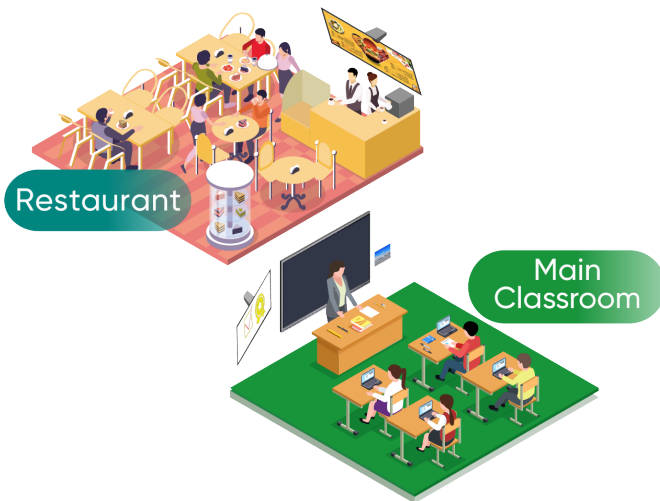

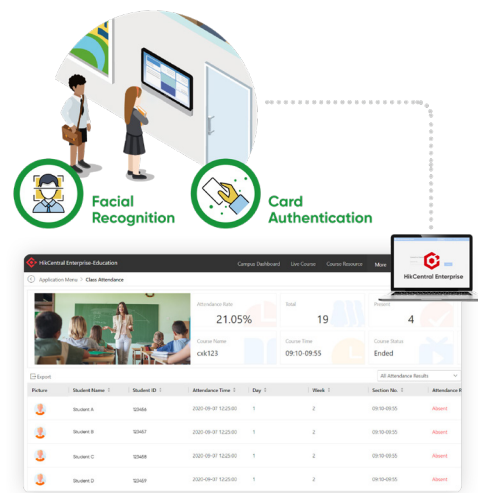

Unified management via the platform

School managers can dispatch content to individual or multiple screens remotely using the HikCentral Professional platform, enabling seamless information flow.

Interactive attendance management

Hikvision's Education Digital Signage can be utilized for attendance recording by face recognition and ID card scanning. Students can easily mark their attendance.

It also offers automated statistics and data retrieval to enhance the efficiency of attendance management for teachers.

Versatile display options

With a range of devices, including floor-standing, wall-mounted, and education digital signage, Hikvision's displays fit various needs and showcase customized content to engage students and faculty.

For example, canteen screens can display menus, while classroom displays feature class albums and honor boards, capturing memorable moments for students.

Dynamic display formats

These devices enable prompt updates of campus information, schedules, activities, and notifications, and support multimedia content such as pictures, audio, and videos, enhancing great readability and engagement.

Product Showcase

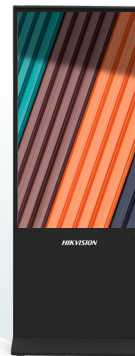

◀ Education Digital Signage DS-D6122TH-D/C

- Luminance: 600 cd/m²
- IPX3 waterproof rating
- Built-in 13.56 MHz RFID module
- Built-in face recognition algorithm, up to 10 individuals within the same frame

Floor-Standing Digital Signage ▶ DS-D6055UL

- Sleek metallic appearance with lightweight and integrated design
- Multiple play modes with customizable options
- Support for presenting materials in various formats

◀ 55-inch 3.5 mm LCD Display Unit DS-D2055HU-Y

- 4K HDMI input, up to 30 screens in auto loop
- Three picture modes: Monitoring, Meeting, and Movie
- Factory-calibrated for uniform color and brightness
